

Homework 12
due November 20, 2008

If you find yourself without enough information, make and justify a reasonable approximation. Please answer all (requested) parts of a question! (This is good practice for an exam setting.)

1. Felder and Rousseau, problem 8.13 (ab)
2. Felder and Rousseau, problem 8.25
3. Felder and Rousseau, problem 8.36
4. Begin to look at Felder and Rousseau, problem 8.54 for homework 13.

Additional project questions will be distributed in a separate handout. Do meet with your team members!
